EDITORIAL
Social neuroscience as an ideal basic science for psychiatry
M. Maj

WHO ACTION PLAN
WHO’s Mental Health Action Plan 2013-2020: what can psychiatrists do to facilitate its implementation?
S. Saxena, M. Funk, D. Chisholm

SPECIAL ARTICLES
Taking the long view: an emerging framework for translational psychiatric science
K.W.M. Fulford, L. Bortolotti, M. Broome
New trends in assessing the outcomes of mental health interventions
G. Thienemann, M. Slade

PERSPECTIVES
Impulse control disorders and “behavioural addictions” in the ICD-11
J.E. Grant, M. Atmaca, N.A. Fineberg, L.F. Fonteneille, H. Madunaca et al.
Suicidal behavior disorder as a diagnostic entity in the DSM-5 classification system: advantages outweigh limitations
M.A. Oquendo, E. Baca-Garcia

FORUM – SOCIAL NEUROSCIENCE AND ITS POTENTIAL CONTRIBUTION TO PSYCHIATRY
Social neuroscience and its potential contribution to psychiatry
J.T. Cacioppo, S. Cacioppo, S. Delibas, A.A. Palmer

Commentaries
Social neuroscience: bringing an end to the destructive and misguided “social” versus “biological” in psychiatry
N. Craddock
Will better psychiatric treatments emerge from top-down or bottom-up neuroscientific studies of affect?
J. Pannekrop
Social neuroscience and mechanisms of risk for mental disorders
A. Meyer-Lindenberg

The brain’s intrinsic activity and inner time consciousness in schizophrenia
G. Nørholm
Social neuroscience in psychiatry: pathways to discovering neurobiological risk and resilience
C. Panteles, C.F. Bartholomew
Social neuroscience in psychiatry: of obvious relevance
R. Kahn
Bridging psychiatry and neurology through social neuroscience
A. Ibañez, R.O. Kulscher, D. Malfattana, F. Manes
Loneliness and social neuroscience
D.W. Russell
Psychiatry and social nutritional neuroscience
J.K. Kiecolt-Glaser, M. Jaemka, S. Hughes

RESEARCH REPORTS
Risks of all-cause and suicide mortality in mental disorders: a meta-review
E. Chennies, G.M. Goodwin, S. Fazel
Effectiveness of programs for reducing the stigma associated with mental disorders. A meta-analysis of randomized controlled trials
K.M. Griffiths, B. Carlin-Arthur, A. Parkinson, R. Reid
Predictors of type 2 diabetes in a nationally representative sample of adults with psychosis
Psychotic experiences as a predictor of the natural course of suicidal ideation: a Swedish cohort study
I. Kelleher, M. Cederlöf, P. Lichtenstein
Markers of inflammation in schizophrenia: association vs. causation
Management of obesity in the psychiatrist’s office
L. Christiaan, C. Tiek
FORUM RESPONSE
The RDoC framework: continuing commentary
B.N. Cuthbert and the NIMH RDoC Workgroup
