Data source: The 2001-2019 National Vital Statistics System's multiple cause-of-death mortality files. NH=non-Hispanic; Estimates for non-Hispanic American Indians or Alaska Natives are not reported due to too many suppressions over the years. *: Joinpoint, which is identified in this year indicating significant changes in nonlinear trends using permutation tests. APC=annual percentage change. AAPC=average APC. #: Age-specific rate for each specific age group. #: Unreliable.

Data source: The 2001-2019 National Vital Statistics System's multiple cause-of-death mortality files. NH=non-Hispanic; Estimates for non-Hispanic American Indians or Alaska Natives are not reported due to too many suppressions over the years. *: Joinpoint, which is identified in this year indicating significant changes in nonlinear trends using permutation tests. APC=annual percentage change. AAPC=average APC. §: Age-specific rate for each specific age group. #: Unreliable.

Supplemental Table 3. Month of the year and day of the week patterns of intentional overdose deaths: U.S., 2001-2019

Time Period	Among Men					Among Women				
	Mean*	SD	IRR	95% CI	p	Mean*	SD	IRR	95% CI	p
Month										
January	184	27	0.969	0.925-1.015	0.183	209	34	0.927	0.887-0.967	<0.001
