

# New and Essential Titles in Neuropsychiatry

**NEW!**

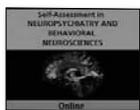

## Essentials of Neuropsychiatry and Behavioral Neurosciences, Second Edition

Edited by Stuart C. Yudofsky, M.D., and Robert E. Hales, M.D., M.B.A.

Clinicians on the front lines of neuropsychiatry require a resource that is eminently practical, as well as comprehensive—one that provides critical guidance at the bedside and in the consulting room. Psychiatry and neurology residents preparing for the daunting American Board of Psychiatry and Neurology certification examination need an efficient way to learn both basic and advanced assessment and treatment techniques in their chosen subspecialties. *Essentials of Neuropsychiatry and Behavioral Neurosciences*, a carefully and thoughtfully distilled abridgement of the comprehensive *American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences*, meets the needs of both groups.

As the growth in neuropsychiatric knowledge—truly astonishing over the last decade—continues unabated, the twin resources of *Textbook* and *Essentials* become not just useful, but indispensable. No psychiatrist, neurologist, or resident in psychiatry or neurology should be without these critical volumes.

2010 • 629 pages • ISBN 978-1-58562-376-1 • Paperback • \$129.00 • Item #62376

## Self-Assessment in Neuropsychiatry and Behavioral Neurosciences

A CME Companion to *The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, Fifth Edition, Version 2*

Robert E. Hales, M.D., M.B.A., James A. Bourgeois, O.D., M.D., and Narriman C. Shahrokh

Earn up to 20 AMA PRA Category 1 CME Credits™!

### ABPN Approved

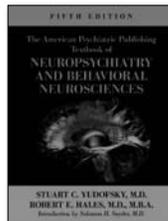

The American Board of Psychiatry and Neurology (ABPN) has reviewed the APPI Self-Assessments CME Program and has approved this product as part of a comprehensive lifelong learning program, which is mandated by the American Board of Medical Specialties as a necessary component of maintenance of certification.

## The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, Fifth Edition

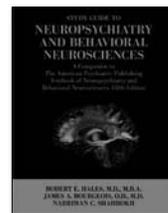

Edited by Stuart C. Yudofsky, M.D., and Robert E. Hales, M.D., M.B.A.

Introduction by Solomon H. Snyder, M.D.

First published over two decades ago as the only multiauthored, comprehensive textbook in the field, the Fifth Edition of this tremendously successful volume expands its focus on the neurosciences to encompass the great strides we've made and their integration into clinical practice. To convey this intensified focus and to acknowledge the recognition by the American Neuropsychiatric Association and the United Council for Neurological Subspecialties of new subspecialty status in neuropsychiatry and behavioral neurology, the editors have added "Behavioral Neurosciences" to the title.

2008 • 1360 pages • ISBN 978-1-58562-239-9 • Hardcover • \$295.00 • Item #62239

## Study Guide to Neuropsychiatry and Behavioral Neurosciences

A Companion to *The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, Fifth Edition*

Robert E. Hales, M.D., M.B.A., James A. Bourgeois, O.D., M.D., and Narriman C. Shahrokh

*Study Guide to Neuropsychiatry and Behavioral Neurosciences* is a question-and-answer companion that allows you to evaluate your mastery of the subject matter as you progress through the corresponding textbook. The *Study Guide* is made up of 246 questions divided into individual quizzes of 5-10 questions each that correspond to chapters in *The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, Fifth Edition*. Questions are followed by an Answer Guide that references relevant text (including the page number) in the *Textbook* to allow quick access to needed information. Each answer is accompanied by a discussion that addresses not only the correct response but also explains why other responses are not correct.

2008 • 202 pages • ISBN 978-1-58562-303-7 • Paperback • \$49.00 • Item #62303

# American Neuropsychiatric Association Announcement

of the institution and endowment of

## The Gary J. Tucker Award in Neuropsychiatry

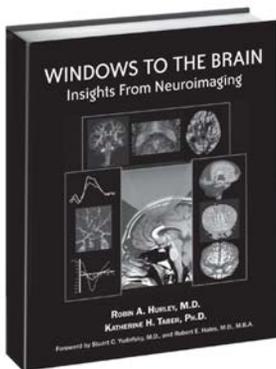

During the 1960's and 1970's in the United States when academic Psychiatry had moved far away from its neuropsychiatric groundings, Gary J. Tucker, M.D. committed his career to reminding us all of the neural bases of behavior. He wrote eloquently about brain-behavior relationships; spoke persistently on this topic; mentored young psychiatrists with similar interests; and as Chair led two major academic departments (Dartmouth and University of Washington) to a more balanced view of human psychopathology. Dr. Tucker is missed by those who knew him; honored by the generations who have come after; and remembered through the establishment in 2009 of **The Gary J. Tucker Award in Neuropsychiatry**. Dr. Tucker was a pioneering member, Director (1990), and Fellow (2000) of American Neuropsychiatric Association (ANPA). He also served as a Director of the American Board of Psychiatry and Neurology.

**An awards endowment is being funded. Please donate generously and send tax-deductible contributions to:**

Ms. Sandra Bornstein, Executive Director  
American Neuropsychiatric Association  
700 Ackerman Road, Suite 625 | Columbus, OH 43202

The Gary J. Tucker Award is the highest honor bestowed by ANPA and is presented to individuals whose careers have best exemplified the professional and personal values of Dr. Tucker. These values include academic leadership in Neuropsychiatry; courage; commitment; mentoring, and scholarship. Recipients shall have demonstrated such values through a lifetime commitment to improving our understanding of brain-behavioral relationships as they affect mental illness.

### WINDOWS TO THE BRAIN Insights From Neuroimaging

Robin A. Hurley, M.D., and Katherine H. Taber, Ph.D.

Foreword by Stuart C. Yudofsky, M.D., and Robert E. Hales, M.D., M.B.A.

*Windows to the Brain* is the only book to synthesize neuroanatomical and imaging research as it pertains to selected neuropsychiatric diseases, containing all of the "Windows to the Brain" papers published from 1999-2006 in the *Journal of Neuropsychiatry and Clinical Neurosciences*. They provide a basic understanding of how to apply a variety of imaging techniques to the study of adult neuropsychiatric disease and how to use neuroimaging to assist in diagnostic work-ups for conditions ranging from sleep disorders to epilepsy to borderline personality.

*Windows to the Brain* can help bring less-experienced readers up to speed on advanced imaging and anatomical details that pertain to the modern practice of neuropsychiatry. It is must-reading for specialists in neuropsychiatry and cognitive/behavioral neurology, or for general psychiatrists with an interest in neuroimaging.

2008 • 263 pages • ISBN 978-1-58562-302-0 • Hardcover • \$84.00 • Item #62302

# PsychiatryOnline.com

**Online access to a premier collection of psychiatric resources**

PsychiatryOnline.com is a powerful website that features *DSM-IV-TR*<sup>®</sup> and *The American Journal of Psychiatry* as the cornerstones of an unsurpassed collection of psychiatric references, including books, journals, and self-assessment tools. Much more than simply books and journals presented online, **PsychiatryOnline.com** features sophisticated searching and indexing tools that enable you to quickly target all the information you need.

Whether your needs are clinical, learning, or research, **PsychiatryOnline.com** provides access to the information critical to your work and everyday practice with convenient features such as:

- Search and linking tools that let you find relevant book chapters and journal articles quickly.
- Unlimited downloads to PDA so you can take book sections with you wherever you go.
- Copy and paste functions for easy creation of tables and presentations.
- Citation exports to most reference manager formats.
- Printer-friendly views that mean no reformatting when you need a hard copy.
- Saved searches and bookmarked chapters to make it easy to return to topics of interest.
- Email page feature that allows you to share the information with colleagues.

# American Neuropsychiatric Association

The American Neuropsychiatric Association (ANPA), established in 1988, is an organization of professionals in neuropsychiatry, behavioral neurology, neuropsychology and the clinical neurosciences. Our mission is to improve the lives of people with disorders at the interface of psychiatry and neurology.

The strength of the organization is our diversity of membership, which is comprised of professionals all areas of neuroscience who share clinical and/or academic interests in neuropsychiatry. The interdisciplinary nature of the membership encourages collaboration among educators, clinicians, researchers, students and trainees in research presentations, symposia, workshops and/or continuing education courses. *The Journal of Neuropsychiatry and Clinical Neurosciences (JNCN)* is the official publication of the organization, and is a benefit of membership.

ANPA holds an annual scientific meeting and provides up to 30 CME/CE credits. Members are encouraged to submit their work for presentation at these annual meetings. Travel awards are available for promising young investigators. Annual meeting abstracts and proceedings are published in *JNCN*.

## Contact Information

### Benefits of Membership

- Subscription to *The Journal of Neuropsychiatry and Clinical Neurosciences (JNCN)*
- Discount on subscriptions to PsychiatryOnline.com including DSM Premium and DSM Premium Plus
- Opportunity for presentation at the annual meeting with accepted abstracts published in the *JNCN*
- Significantly reduced registration fees at the annual meeting
- Newsletters, news updates, information on job and training opportunities, research and meeting information on the ANPA web site: [www.anpaonline.org](http://www.anpaonline.org)
- Discounted membership and meeting registration fees for trainees
- Collaboration in clinical, educational and research activities and the opportunity to interact with senior colleagues
- Opportunity to participate on committees and in the future leadership of ANPA
- Opportunity to participate in on-line forums for discussion of research, clinical cases and/or current issues related to neuropsychiatric practice
- Opportunity to join Special Interest Groups for members who have common interests in specific research, clinical cases, practice issues or educational areas

22<sup>nd</sup> annual meeting

## meeting announcement & call for abstracts denver

The Westin Tabor Center, Denver, Colorado

March 23-26, 2011

Don't miss ANPA's 22<sup>nd</sup> annual meeting!

Continuing Education Credits will be offered.

Abstracts presented at the meeting will be published on-line in the spring 2011 issue of the *Journal of Neuropsychiatry and Clinical Neurosciences*.

Travel awards may be given to one or more of the young investigators submitting the most promising abstracts.

**Deadline for receipt of abstracts is November 3, 2010.**

Complete submission instructions are available at:  
[www.anpaonline.org](http://www.anpaonline.org)

Meeting information can be found on the ANPA web site:  
[www.anpaonline.org](http://www.anpaonline.org) as it becomes available.

**Keynote Address: Helen E. Fisher, Ph.D.**

Biological Anthropologist  
Center for Human Evolution Studies in the Department of Anthropology  
Rutgers University

**Sessions will include:**

- The Neuropsychiatry of Brain Injury in the 21st Century-War and Peace
- Neuroimmunology
- Neuropsychiatry of Hedonia
- The Spectrum of Sociopathy in Dementia
- Current Neuropsychiatry – Research and Clinical

**Pre-meeting Workshops**

- Pathways to Pleasure: The Anatomy of the Reward System
- The Nuts and Bolts of Traumatic Brain Injury: Impact and Outcomes

The Westin Tabor Center

March 23-26, 2011

[www.anpaonline.org](http://www.anpaonline.org)

You are invited to submit abstracts reporting new research or challenging clinical cases for poster or platform presentations.
