

ASSESS FUNCTIONAL IMPAIRMENT ACROSS 6 IMPORTANT LIFE AREAS.

info.mhs.com/rsi-free-trial

RSI[™] RATING SCALE OF IMPAIRMENT[™]

- **Determine if DSM-5/ICD-10 impairment criteria for a diagnosis are met** by identifying specific areas where functioning is impacted
- **Develop targeted treatment plans and monitor progress** by focusing on areas with the greatest impairment
- **Determine if service eligibility requirements are met** with IDEA compatibility
- **Assess impairment more clearly** by separating functional limitations from symptoms

Casebook of Neuropsychiatry

Edited by Trevor A. Hurwitz, M.B., Ch.B.,
and Warren T. Lee, M.D., Ph.D.

Casebook of Neuropsychiatry is comprised of 38 clinical cases based on real patient interactions that straddle the domains of neurology and psychiatry. The book is designed to supplement comprehensive texts by providing real-world accounts of patient presentations that clinicians are likely to encounter.

Psychiatry
UNIVERSITY OF TORONTO

Sunnybrook Health Sciences Centre, a fully affiliated teaching site for the University of Toronto, is seeking a full-time neuropsychiatrist for its Traumatic Brain Injury Clinic. The anticipated start date is July 1, 2017.

The Traumatic Brain Injury Clinic is situated in Sunnybrook Health Sciences Centre, Canada's largest tertiary referral trauma centre, and provides behavioral assessments to patients with mild to moderate brain injuries. The Clinic's mandate is to assess and treat patients within three months of injury. Brain imaging (fMRI) and neuropsychological testing are integral to the clinic and a research component is built in to allow access to a large, longitudinal behavioral database.

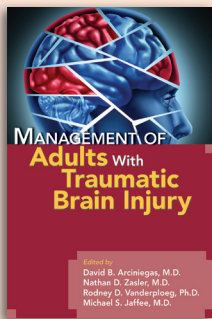

The successful candidate should possess strong leadership skills with a capacity for team-building and fostering multi-disciplinary collaboration. The selected psychiatrist will be responsible for a combination of patient care and teaching of medical students, residents and fellows. He/She should be a clinician-scientist with a proven track record of independent scholarship in the neuroscience field with a focus on traumatic brain injury.

The candidate must be eligible for appointment at the rank of Assistant Professor at the University of Toronto and be eligible for certification with the Royal College of Physicians and Surgeons of Canada, and licensure with the College of Physicians and Surgeons of Ontario. Salary is commensurate with qualifications and experience.

Interested applicants should submit a letter of introduction and curriculum vitae to **Dr. Ari Zaretsky**

Psychiatrist-in-Chief, Sunnybrook Health Sciences Centre
via email to ari.zaretsky@sunnybrook.ca by May 26, 2017.

Management of Adults With Traumatic Brain Injury

Edited by David B. Arciniegas, M.D., Nathan D. Zasler, M.D.,
Rodney D. Vanderploeg, Ph.D., and Michael S. Jaffee, M.D.

Traumatic brain injury (TBI) is a public health issue of worldwide proportions, affecting motorists, victims of interpersonal violence, athletes, military service members, and Veterans, among others. *Management of Adults with Traumatic Brain Injury* provides evidence-informed guidance on the core topics in brain injury medicine, including the epidemiology and pathophysiology of TBI, the medical evaluation and neuropsychological assessment

of persons with TBI, and the common cognitive, emotional, behavioral, and other neurological disturbances for which persons with TBI and their families seek clinical care.

This book is a must-read for every physician, nurse, and mental health practitioner working to improve the lives of persons with TBI.

2013 • 587 pages • ISBN 978-1-58562-404-1 • Paperback • \$87.00 • Item #62404

2013 • 587 pages • ISBN 978-1-58562-988-6 • eBook • \$70.00 • Item #62988
